Venice, September 26. N. S.

THE Imperial Army commanded by Prince Eugene, and the French Army under the Command of the Duke of Vendoſme, continue in the ſame Camps. The latter have lately received a Reinforcement of 5000 Men from their Army in Piedmont. The Imperialiſts have likewiſe received Supplies of Men and Ammunition from Germany, and are in daily expectation of more Forces from thence. By a Merchant Ship lately arrived here, which ſailed from Alexandria the 4th of the laſt Month, we have an Account, That the Arabs who are in Arms againſt the Grand Signior had made an Incurſion into Egypt, burnt and deſtroyed above 50 Barks laden with Corn that were coming down the Nyle, and plundered the Country thereabouts: Whereupon the Baſſa of Grand Cairo was marched out with a Body of 7000 Horſe to oppoſe them.

Dantzick, Sept. 30. Letters from Warſaw of the 25th Inſtant give an Account, That it had been reſolved in the Aſſembly of the Confederated Nobility of Poland to proceed to the Coronation of the new Elected King Staniſlaus on the 4th of the next Month, notwithſtanding the Inhibitions from Rome; and it is ſaid, that they have made Choice of the Archbiſhop of Lemberg to perform that Ceremony; and that a great Progreſs was made in the Treaty of Alliance which is negotiating there between the King of Sweden and that part of the Poliſh Nobility. The Cardinal Primate continues to excuſe himſelf from being concerned in publick Buſineſs, and is preparing to remove from hence to the Caſtle of Marienwerder, which lies near the River Weiſſell, in the King of Pruſſia's Territories. The Czar continues his March from Courland towards Ticozyn, and will be joined by a Body of Coſſacks, who having divided their Army into three parts, are to leave another Body of their Troops towards Cracow, to obſerve thoſe commanded by the Palatine Potocki, and with the third to join the Army with which the King of Poland intends to march from Saxony into Poland. The King of Sweden continues with the greateſt part of his Forces at Blonitz.

Vienna, Sept. 30. Yeſterday the Marquis de Prie, Ambaſſador from the Duke of Savoy, made his publick Entry; and this Morning his Excellency had publick Audience of the Emperor and Empreſs. Baron Bartholdi, Envoy Extraordinary from the King of Pruſſia, has alſo had Audience of their Imperial Majeſties, to whom he made Compliments of Condolence and Congratulation, upon the Death of the late Emperor, and his Imperial Majeſty's Acceſſion to the Throne. Our laſt Letters from Presbourg bring Advice, That the Body of Malecontents under the Command of Otzkay had made themſelves Maſters of two Caſtles not far from thence, called Plaſſenſtain and Scherffenſtein; and that they were attacking Bybersberg. On the other hand the Imperial Army commanded by General Herbeville is ſaid to have recovered from the Malecontents the Caſtle of Hatuan, together with a large Eſtate adjoining, belonging to the Prince of Salms.

Francfort, October 7. The Imperial Army commanded by Prince Lewis of Baden is ſtill in the ſame Camp at Wierſheimb, and the Marſhal de Villars, with the French Army under his Command, continues encamped at Biſchen, near Strasbourg. The Troops under the Command of General Thungen, which were detached from the Imperial Army to form the Siege of Haguenau, broke Ground before that Place the 28th paſt, and formed two Attacks, whereof one was carried on by the Pruſſian Forces, and the other by thoſe of Saxony and Wirtemberg, with ſo much Vigour, that on the 4th Inſtant the Governor beat a Parley, and offered to ſurrender, upon condition that he and his Gariſon might be allowed to march out with their Arms and Bagage, and ſome Cannon, and be conducted to Strasbourg; but being anſwered, That he had no other Terms to expect than that he and his Gariſon ſhould remain Priſoners of War, the firing was renewed on both ſides; however we are hourly in expectation of receiving an Account of the Surrender of that Place.

Hague, October 14. *N. S.* His Grace the Duke of Marlborough arrived here yeſterday, and had a Conference the ſame day with the Great Penſionary, and intends in 3 or 4 days to return to the Army, which continues encamped at Herentals; as the French Army does likewiſe in its former Camp. The Biſhop of Lubec is lately dead: The Adminiſtrator of Holſtein has taken poſſeſſion of the Biſhoprick. Juſt now we have Advice, That the Enemy quitted Haguenau on the 6th in the Evening, and retired to Siverna. Letters from Paris of the 9th ſay, That the taking of Fort Montjoui had occaſioned the Surrender of Barcelona; but 'twas not yet ſaid upon what Conditions; and that all Catalonia had declared for King Charles the Third. A Body of Catalans had inveſted Gironne. There are Letters from Madrid of the 22d paſt which ſay, That the Miquelets, who are in the Intereſt of his Catholick Majeſty Charles the Third, had made themſelves Maſters of Lerida, and had beſieged another Town on the Frontiers of Arragon. The States of Holland and Weſtfriſeland are aſſembled, and have at preſent under their Conſideration the Differences that have continued ſome time among the Roman Catholicks of this Country, in relation to their Vicar-General, which are in a fair way of being accommodated to the Satisfaction of all Parties.

Plimouth, Octob. 2. Her Majeſty's Ships the Severne and Scarborough, with two Dutch Men of War, and divers Merchant-men under their Convoy, ſailed from hence this day to the Eaſtward.
